Proposed Interview Agenda

A) Applicants' representatives wish to discuss the rejections under 35 U.S.C. § 103(a) in an effort to advance prosecution.

In particular, Applicants' representatives wish to discuss the features:

- a) "a second memory unit for storing the runtime data, which have been loaded into the first memory unit in the accessible state, in a form of images,"
- b) "wherein said first memory unit and said second memory unit are separate," and
- c) "a runtime data search unit for loading the runtime data, which have been stored in the second memory unit in the form of images, into the first memory unit upon the request of the class loader unit," as recited in claim 1.

We believe that at least the above-listed combination of features render claim 1 distinguishable over the applied art.
